1984 GRADUATION

Mr. Gainous opens the graduation ceremonies.

Laura Adams receiving her diploma.

The class of 1984 anxiously awaits their diplomas.

Graduation ceremonies of 1984 were a great success even though it rained. Before it rained they made it through scholarships and the special awards. Mr. Berch, the speaker, gave his speech which told what he felt the students will most remember from their years at Gar-Field. When the rain started, Mr. Lacey announced that the class of 1984 was officially graduated.

Paul Pyrz, Lisa Powell, and Brenda Scharp enjoy their long awaited graduation.

The Crystal City Stouffers Ballroom was the site for a beautiful night of dancing and romance. It was sponsored by the class of '85, music was by Sinbad, and the food was catered by Marriott. The atmosphere was definitely classy with everyone in long gowns and tuxedos. The 1984 prom will be hard to top.

Powder Puff football has been held at Gar-Field for 6 years now. On May 25, 1984 the seventh Powder Puff football game was held. This game consists of female players and male cheerleaders. The seniors are divided into two teams, Team A and B. They have coaches and choose their team name. This year team B won the game with a score of 6-0. The players play not only to win but to have fun!

Career Night's main objective is to give the students background in the fields they wish to pursue in their future years. The students see occupations ranging from military careers (Army, Navy, Air Force, Marines) to electrical engineering. While on the career night tour through Gar-Field's hallways, the students had the opportunity to ask and receive information. The answers received from these occupational tradesmen sometimes influence the decisions of the future for many students.

G-F hosted a parade to congratulate Benita on her outstanding performance in the Olympics. In the parade many of Gar-Field's groups came out to honor Benita, such as the cheerleaders, Indianettes, and the marching band. Benita will be remembered always, and honored for her achievement.

Near the end of the school year Gar-Field holds Arena scheduling. Arena scheduling allows students to take the classes they want during the class period they want.

The process can be fun or it can be complicated. It's fun if you can get the classes you want, but it only takes one class to mess up the whole schedule. The lines are long, but most students usually get the classes they want. Nevertheless, Arena scheduling allows the students to make their own decisions. By being able to act mature and responsible, the Arena scheduling somewhat prepares the students to prepare for college by choosing their own classes.

SOCIOLOGY WEDDINGS

Many seniors decide to take sociology as one of their electives for their senior year at Gar-Field. During the year relationships are studied in sociology. At the end of the year weddings are staged for the students enrolled in sociology. The couples involved write their own vows. The weddings are silent and very serious. Students portray clergymen to marry the couples. Following the weddings, there are receptions complete with cake and refreshments. Most of the work for the weddings is up to the students, so there's a different approach and atmosphere each year. The weddings are symbolic of what almost all of us will go through sometime in our own lives.

FRIENDS

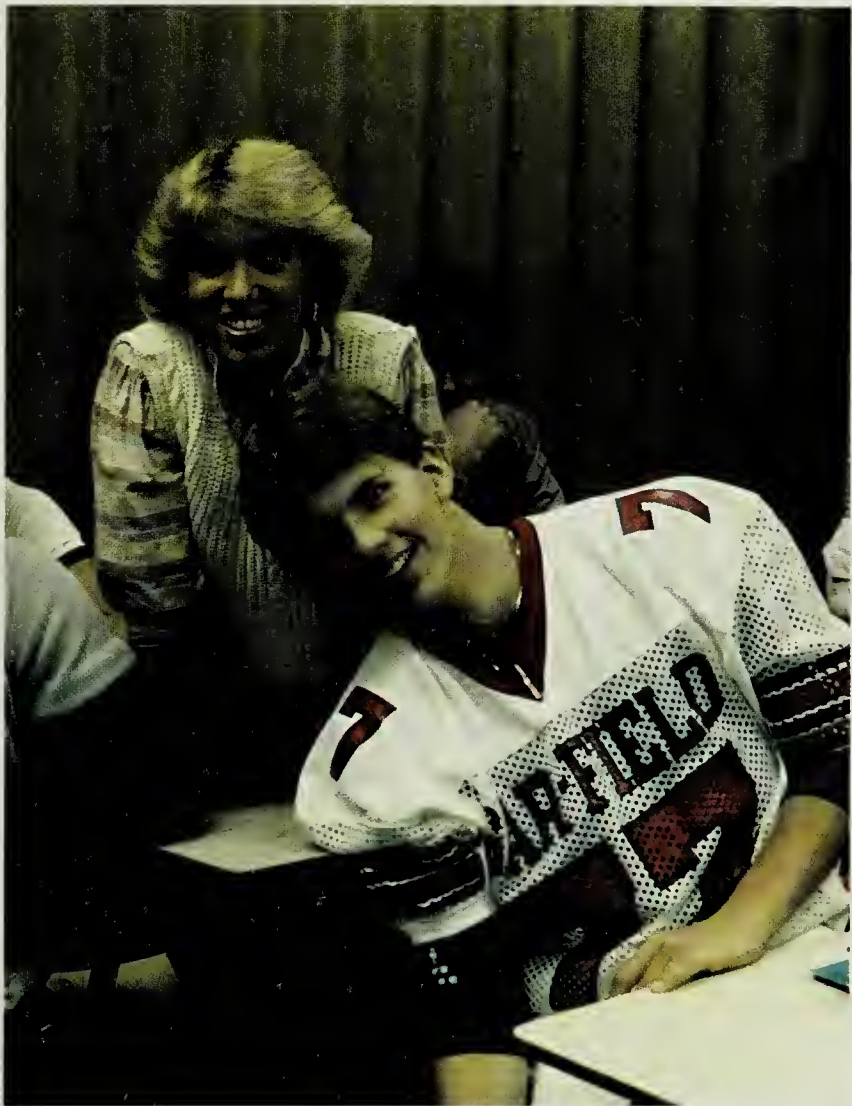

Terry Thorne and Mike Migliorini, good friends . . .

Where would any student be in Gar-Field without friends? They are those special people who help you make it through high school and life. As you walk through the school you see friends everywhere — walking, eating, socializing, laughing and even crying. Friends are what make school so fun. Many students are not only with their friends in school, but after school too. Football games, parties, jobs, shopping, and just hanging around are just some of the things friends do.

Breakdancing is a type of dancing that consists of acrobatics, gymnastics, and athletic skills. The moves in breaking are very complicated and dangerous if incorrectly performed. Many people have been injured, but the craze goes on.

Even though it is considered a new style of dancing, it started in the streets of New York nearly 10 years ago. Its popularity quickly spread throughout the country. The best groups such as New York City Breakers and Rock Steady Crew are based in New York but there are thousands of groups throughout the country. Some local groups are Dynamic Force and Jam Masters. Many experts believe that breakdancing is not just a passing thing but will be with us for a long time.

For many students, lunch is not just for eating. Lunch is used for taking a break, socializing with friends, and doing last minute homework. Many students eat lunch but when they're done, they're seen in Gar-Field halls with many friends. Without the 30 minute break in classes, we would all go crazy!!

A whole class of smiles!

Seeing a smile or a happy person makes everyone's day. Smiles show happiness, friendliness, and enjoyment. During lunch and between classes there are many people with wide smiles across their faces. There would rarely be a time when a person could walk down Gar-Field's halls and not be greeted with a smile.

AND HAPPY FACES

DR. BAILEY

In addition to the incoming freshmen and the 100 new faces that arrived at Gar-Field this year, there was one new face which all of the student body soon recognized as a definite part of Gar-Field Senior High School — the face of Dr. Zuill Bailey, the new principal.

A graduate of East Carolina University and a recipient of a Master's Degree from the University of Illinois, Dr. Bailey began teaching in Virginia in 1966 at Woodbridge Senior High School. In 1978, Dr. Bailey was appointed to the position of Supervisor of Music by the Prince William County School Board. This year, Dr. Bailey switched from instructional supervisor to become Gar-Field's new principal.

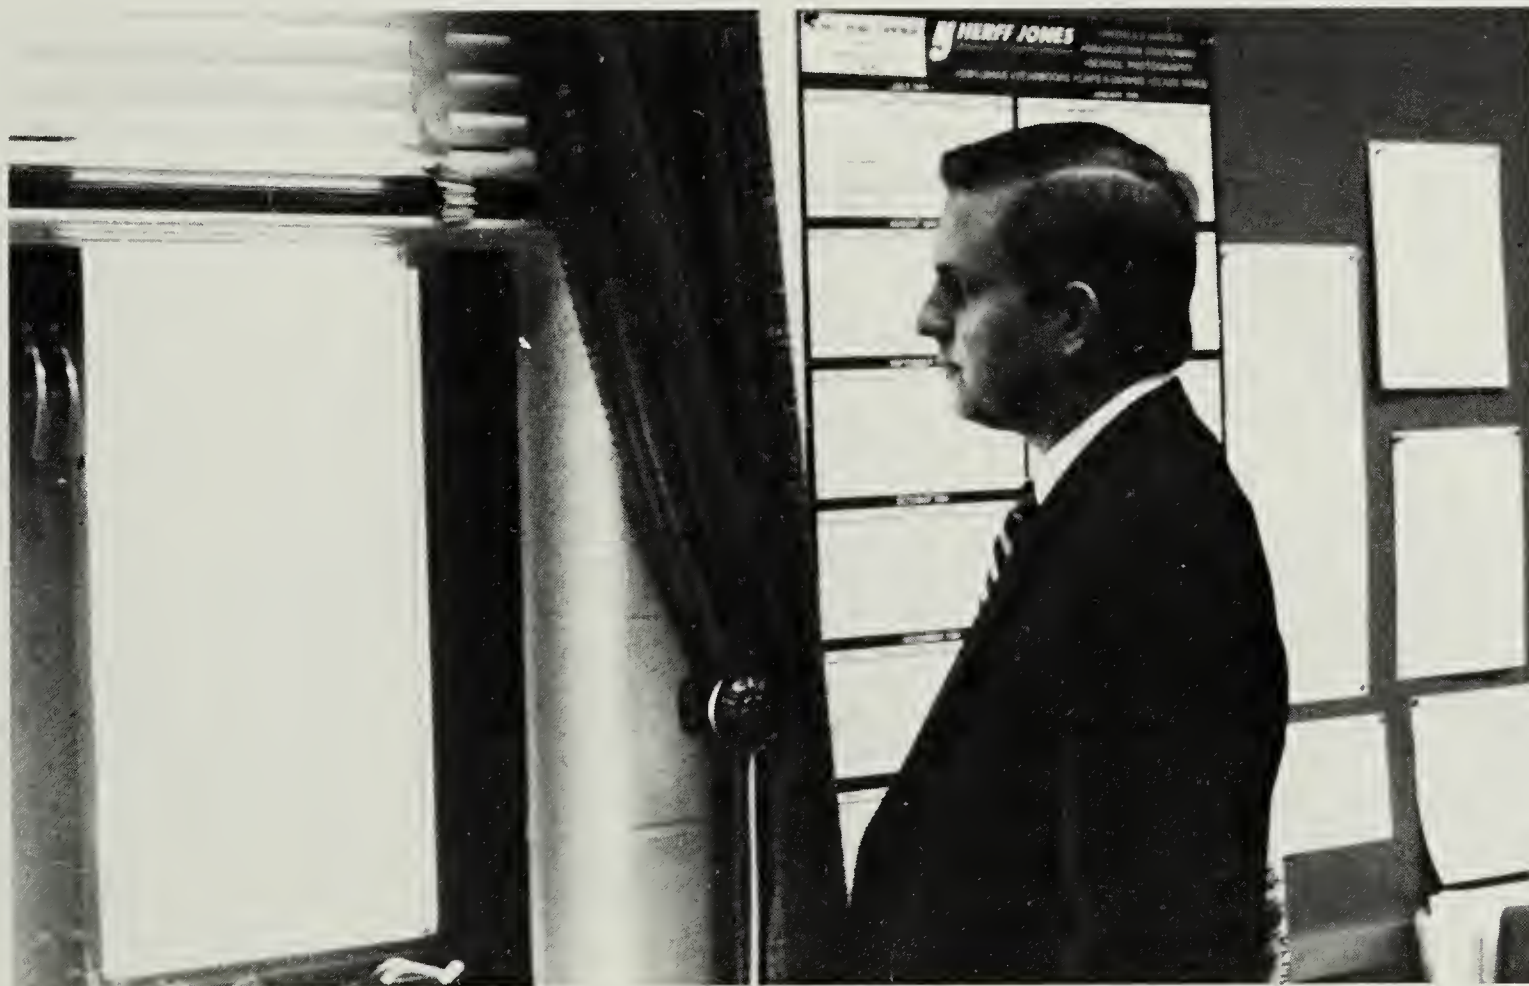

Though Dr. Bailey has been principal for only a short period of time, he believes Gar-Field is a superb school and is impressed with "the caliber of its students." In the future, he hopes to spend more time with both the students and the teachers seeking ways to improve our school. Dr. Bailey is determined to make Gar-Field a model school. "More power to you, Dr. Bailey! Gar-Field is behind you 100%!"

1984 HOMECOMING

Homecoming King Timmy Rogers with his date Barbi Gazda.

Homecoming Queen Stacey Komar.

“Purple Rain” came to Gar-Field Senior High School this year. This is not to say that it rained on our parade. Homecoming 1984 was a great success!

The highlight of the dance was the 10 ft. by 8 ft. face that resembled the face on Prince’s ‘Purple Rain’ album slip cover. The boutique welcomed couples as they entered the purples, silvers, grays, and whites of the decorative main lobby. Silver chandeliers hung sparkling from the ceiling while a punch bowl fountain kept students thirst away.

Halfway through the dance, Homecoming princesses were announced and escorted to the middle of the dance floor. The last couples to approach the floor were the King and Queen, Timmy Rogers and Stacey Komar, escorted by their dates. Timmy and Stacey shared a slow dance and soon after the other couples joined in.

The evening was sprinkled with sounds of Prince and his Revolution. Music was dj-ed by junior Bob Gore. Homecoming 1984 was very enjoyable for everyone. Thanks to the SGC for bringing “Purple Rain” to Gar-Field.

SPIRIT WEEK

The purpose of spirit week is to build up enthusiasm for the big football game against Woodbridge. Each day of spirit week represents school spirit. Monday was twin day; Tuesday was career day; Wednesday was class day; freshman day was backwards day, sophomores day was punk rock, juniors were babies and beach, and seniors were nerds. Thursday was jersey day and Friday, the big day of the pep rally, was red, white, and blue day. This year Gar-Field's spirit led our team to victory!

Student Life represents the many activities that do not take place in the classroom or on the athletic field. These activities are as important to life as school itself. School days are days of fun, activity, and friends. These are days we will remember all our lives.

ACADEMICS

MATH

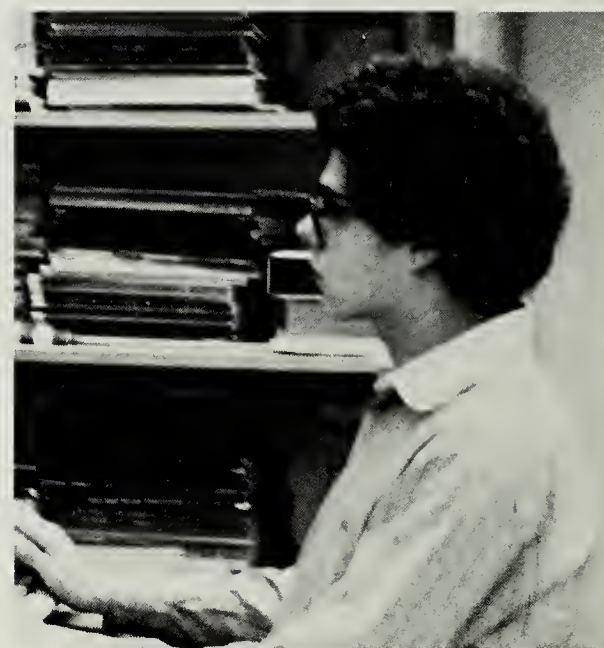

Our Math Department at Garfield offers a wide variety of courses to please every student. Everything from remedial math (through General, Algebra, and Geometry) right up to Calculus and computers. Remedial Math is for the students who have not passed math competency tests, and General Math with Algebra I and II are for the students who have problems getting started with math. This all leads to Algebra I or Geometry then on to Trig or Math Analysis — and Oh No!! CALCULUS! There are two more math courses that deal with something a little different. They are Consumer Math and Computer Math. Consumer Math helps with everyday mathematics, and Computer Math teaches the fundamentals of writing math-oriented computer programs. With all of these courses, our Math Department helps all students deal better with a main element of life — Math.

Guess Who?

HISTORY

For 9th through 12th graders, one of the places familiar to all is the Social Studies pod. Walking by the various classes, one gets a wide range of history.

Starting with the Paleolithics and Neolithics of World Studies, one learns his ancient ancestry, and progression and learnings of man.

American Studies takes the student into the culture and government of the American people.

Then there's that "fun" class known as Sociology. This teaches students about the "real" world. Skits, role playing, and lively discussions are all a part of the learning techniques applied in this class.

Yes, History has been made, can't be escaped, and must be learned. So, students make the best of it and take at least 3 years, or even up to 5 years of history in their four years at Gar-Field.

SCIENCE

In this day and age, science is becoming an important part of everyone's life. At Gar-Field, students are fortunate to have an excellent science program with many courses to choose from. Courses offered are: Earth Science, Biology, Chemistry, and Physics, with advanced courses in Biology and Chemistry. Consumer Chemistry is advised for those who only wish to use science in every day life.

For the super-scientific minds, the science fair each spring gives students the chance to win awards and scholarships for their hard work. The science club offers students an opportunity to meet regularly to plan conventions and other science related activities.

ENGLISH

Some people love it. Some people hate it. But no matter what, every student must take 4 years of essays, dittos, short stories, poems, and even the dreaded research paper — that is to say, 4 years of G-F English. Grades 9-12 may sign up for basic, regular, or enriched English courses. Seniors also have the option of taking the Advanced Grammar and Composition course, a preparation class for college level English.

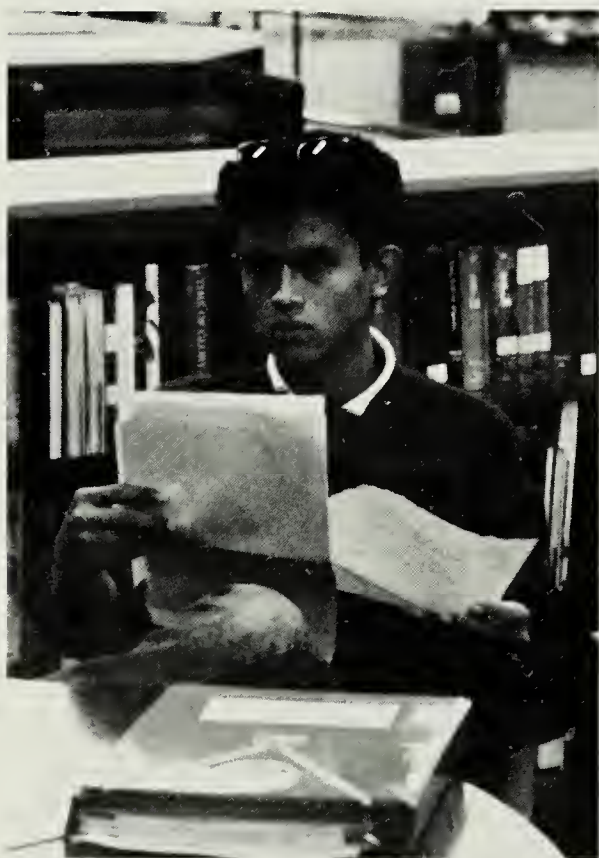

The English department is involved/associated with other activities (besides assigning homework in class!) Journalism class and *The Hyphen* are taught and supervised by Mrs. Smith. Forensics is overseen by Mr. Edwards. Mrs. Powers, Mrs. Little, and Mr. Corbin are sponsors of G-F's literary magazine, *The Shaman*.

Look at that face! That teacher's aide's face! Kathy Williams and Ricky Simmons.

The play, "You're a Good Man Charlie Brown", was sponsored by the English department.

FOREIGN LANGUAGE

With different cultures intermingling in our present day society, a second language is often a useful tool. The foreign language department offers a variety of languages, each ranging from one to five years of excellence.

The choice is yours: French, German, Spanish, Latin, or English as a second language. Clubs for each are formed yearly. The members demonstrate their knowledge against other schools in competition, sometimes bringing home a trophy for their hard work and dedication.

P.E.

Physical Education 9 includes 15 weeks of Health and 21 weeks of sports activities such as basketball, handball, volleyball, and archery. Students are also required to take physical fitness tests. Those who do well are recognized for their high athletic achievement.

Physical Education 10's curriculum is similar to that of P.E. 9's. However, in addition to Health and sports activities, P.E. 10 offers Driver's Education. In this class one learns about driving "on the range." Upon completing Driver's Education with a passing grade, one may apply for a driving permit at age 15 years and 8 months.

For those students who are interested in taking more than 2 years of P.E., semester courses of physical education are offered. Health instruction is not included in Elective P.E.

MUSIC

Music is another extracurricular activity class in which students may become involved at Gar-Field. Our Music Department contains three large sections: Band, Choir, and Orchestra. Band classes include: beginning band, varsity band, symphonic band, and the stage band. The Choir Department has three main choirs: Treble, Varsity, and Concert — along with the performing group “The Dominants.” Gar-Field also has two Orchestras. One is a general orchestra and the other is a small “chamber” orchestra. All of our musicians are very good and our school has won many awards in various competitions. Because of their skills, many Gar-Field students take extra classes in music theory and some are in more than one music group. This helps students if they want to excel in the music field. All these music classes enable G-F to have a terrific sounding music department!

Charmane and Laura take a break from practicing.

Mr. Schrum — "One, Two, Three, Four!"

ART

Taking a fine arts class, such as sculpture, drawing, or painting is more than just an "easy A" class or a "free period." It is a class in which one has the chance to express himself through his creation of art. This may be considered "easy" for some, but for others, it takes a lot of hard work. For the students who believe they have no artistic ability whatsoever — that's no excuse! Mr. Pugh, Mrs. Wooley, and Mrs. Simpson are here to assist G-F students in becoming full-fledged artists.

All in all, art is fun. It is a chance for one to express himself through creativity.

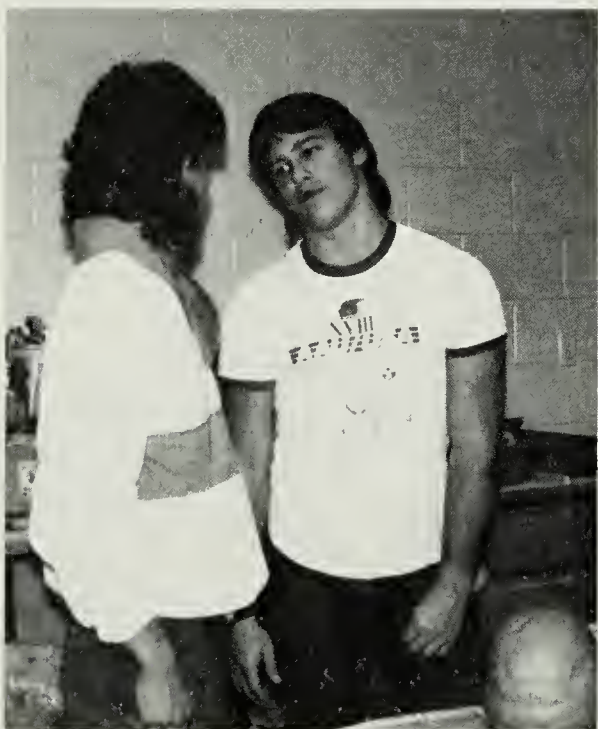

Aren't you supposed to be drawing Jeff Tuano?

Wash-a wash-a, wash-a Chris Rodriguez!

"Hey" says John McCain, "can't you see I'm carving my printing block?"

"Listen Mark, if I say it's gonna be a vase, it's gonna be a vase, OK?" says Todd Land.

"I'm supposed to print what where?" asks Lisa Drotos.

HOME EC

Miss Aiken directs the pre-mixing.

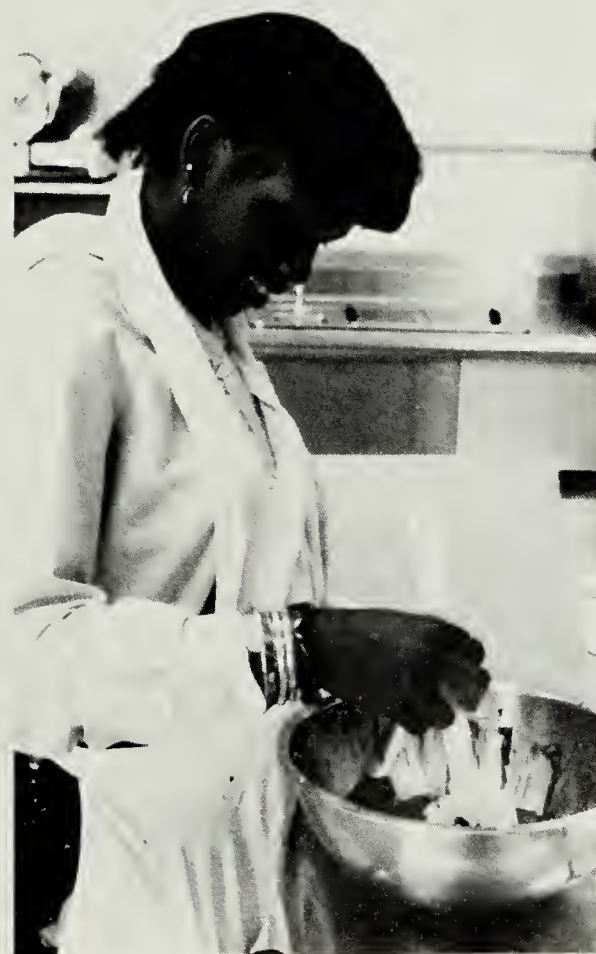

For students interested in learning how to cook, sew, live by themselves, or take care of children, Gar-Field offers a variety of Home Ec. classes. Some of these include Food Services, Single Living, and Child Development. Besides learning how to balance budgets, serve 4-course meals, and treat diaper rash, students learn to co-operate and get along with each other. But best of all, . . . it's fun!

What is that?

Guess who got the "crumby job."

Looks like Lashon gets to lick the bowl.

L.P.N. AND D.E.

Two of the many types of job training offered at Gar-Field Senior High School are L.P.N. and D.E. L.P.N. — Licensed Practical Nursing instructs students in the fundamentals of nursing. The course is designed to prepare them for the tests required to become a registered nurse. D.E. — Distributive Education teaches students the skills necessary to be successful in the world of marketing and sales. They learn to develop themselves in the math and communication aspects of their area of business. These two courses are helpful in providing first hand experience at the job careers the students think they might pursue.

Changing Fashion?

INDUSTRIAL ARTS

Power and Transportation, Auto Mechanics, Masonry and Construction all fall under the title of Industrial Arts. These classes are designed to teach students things they need to know if they plan to pursue one of those fields as a career. The majority of students taking the classes are guys, but girls are welcome too. Only students serious about learning a trade should take these classes, as they involve dangerous equipment.

I need a bigger hammer . . . or do I?

It's all here in I.A.

TECHNICAL

Electronics, Communications, Printing, and Mechanical drawing are the technical classes that Gar-Field offers. Electronics exposes the students to electronic components and their operations. Communications covers many aspects including illustration, sketching, photography, television, radio and other equipment that students learn to use in this field. Mechanical drawing is a class that teaches students in areas of orthographic projection, technical geometry, and pictorial drawing. Printing teaches students to use instruments and equipment involved in the printing process.

BUSINESS

Click . . . click . . . click, click, click . . . To anyone familiar with the business areas of Gar-Field, this is a typical sound. The labored typing away of a beginner versus the quick tapping of an old pro.

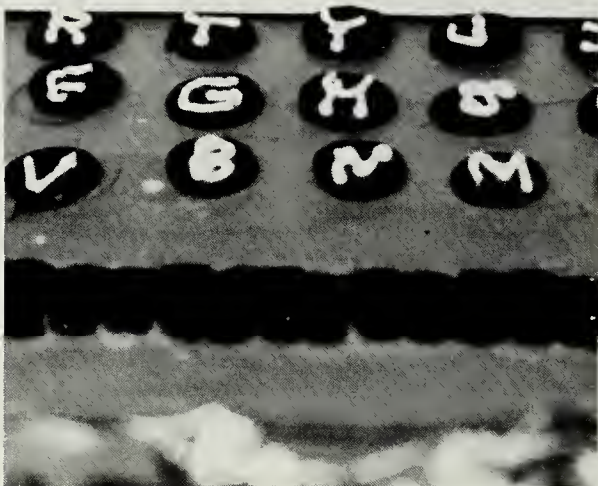

The thorough range of classes offered in the business field are a great help to many students wishing to make this their career. Through typing, steno, accounting, and data processing, students are taught the various methods used in the big business world outside of Gar-Field Senior High School. Some students are even fortunate enough to be accepted into the Co-Operative Ed. program. With this, they attend a half day of school and then go to their respective jobs. This offers on-the-job training, high school credits, and a salary. But, before one can get that far, the typing technique must be mastered. One area that is fast becoming our future is the world of computers. Nowadays, everything seems to be run by computers. And yes, Gar-Field does offer courses in this area. But, typing is a must, so it's back to the keyboard! Click . . . click . . . click.

The coach, Mr. Johnson, hoped his team would take fourth place in the District at the start of the season. Unfortunately though, "We lost all the close ones . . . the ones that were three sets and the tie-breakers." He credits this to his team's lack of experience. He says the team will be much better next year and there was no question in his mind that the team showed tremendous spirit. This team worked well together and were consistently giving each other support, whether it was at practice or in a game. The #1 seed was held by Rick Gillespie. The team had such great depth that the next six seeds were constantly changing from day to day. With a team of seasoned players returning next year, Gar-Field should be looking at a successful season.

As all sport teams, the JV Boy's Soccer team had their "ups and downs" in the beginning of the 1984 season. However, as the season progressed, Coach Aleo became very impressed with this year's group of boys. Their overall goal was "to be the perfect TEAM" in every sense of the word. In the exciting game against Brentsville, a varsity team, the JV boys fulfilled their goal. At the end of game regulation time, the score was tied 4-4. After two overtimes, a "shoot-out," and a "sudden death," the better team prevailed — Gar-Field.

The season ended with an impressive record of 3-3-1. Mr. Aleo compliments this JV team as being the "best" and having "more skill" as compared to the past.

GAR-FIELD VARSITY FOOTBALL RECORD

OVERALL 5-4-1

Game 1: September 8, 1984

Anacostia 0 Gar-Field 21

G-F opened its season with a spectacular win over Anacostia. Kevin Fowikes was outstanding on defense as he intercepted a pass by Anacostia during the first play of the game. Two touchdown passes to Dennie Hart by quarterback Brian Wickum gave the Indians a strong lead.

Game 2: September 14, 1984

Osborn Park 35 Gar-Field 6

G-F lost its first district game of the season to the visiting yellowjackets. This year was the first year to play Osborn Park in Gar-Field history. Robert Davis ran a 89-yard kick off return to score the only G-F touchdown.

Game 3: September 21, 1984

Stafford 0 Gar-Field 10

Back on the winning streak, Gar-Field's defense led to the second victory of the season over the Stafford Indians. Robert Stanley scored in the first half with Barry Miller adding the extra point. Barry also kicked a field goal later in the game to increase the final score.

Game 4: September 28, 1984

James Wood 13 Gar-Field 12

On a cold and damp night, G-F traveled to Winchester to take on the Colonels. After three quarters of play the Colonels led Gar-Field 13-6. However, the Indians fought back and scored another touchdown making it 13-12. In the last remaining seconds of the game G-F elected to go for the extra point which could have won the game, but the attempt failed.

Game 5: October 5, 1984

Fauquier 6 Gar-Field 10

In front of a large homecoming crowd the "Falcons cried" when Gar-Field's defense held them to a 10-6 victory. Barry Miller scored on a 36-yard pass by quarterback Brian Wickum and later in the game kicked a 22-yard field goal. Rudy Walker played excellent defense.

Game 6: October 12, 1984

W.T. Woodson 32 Gar-Field 0

Gar-Field traveled to Fairfax to challenge a northern Virginia powerhouse. The Cavaliers controlled the ball most of the game, but G-F played tough. Coach Robinson considered this game to be the low point of the season.

Game 7: October 19, 1984

Stonewall Jackson 17 Gar-Field 17

Following the disappointing loss of the previous week, the Indians faced the number four ranked team in the state. G-F showed great determination and courage, fighting back from a 10 point deficit in the second half to tie the Raiders in the fourth quarter.

Game 8: October 26, 1984

Potomac 20 Gar-Field 0

Although out gunned by a powerful Potomac team, ranked in the top 20 in the Metropolitan area, G-F displayed its courage and heart in front of a large crowd at Ralph Barnett Stadium.

Game 9: November 2, 1984

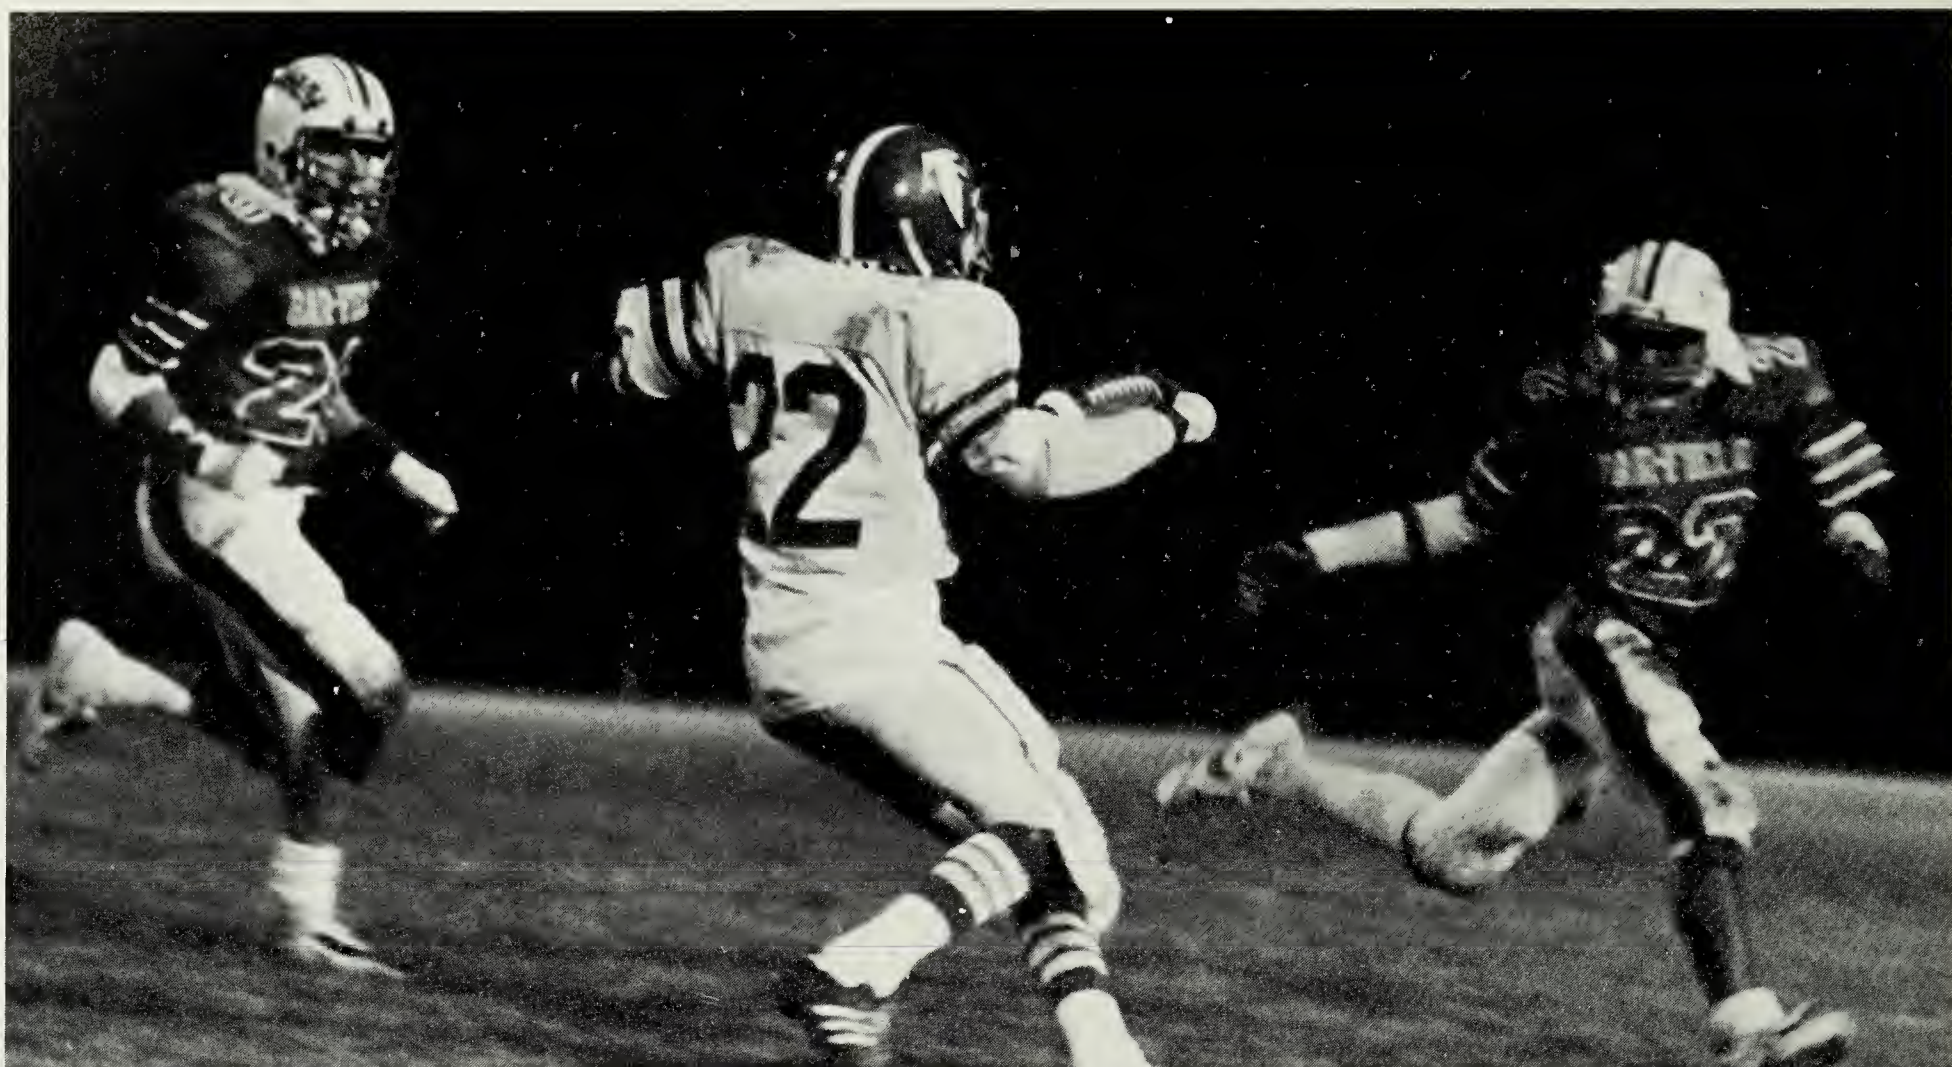

North Stafford 7 Gar-Field 15

Coming into this game 17 players were unable to play. Major line-up changes were made forcing a change in the Indians offense attack. The new faces in the line-up proved to be very productive. Controlling the ball most of the time gave G-F a 15 to 7 victory over the Wolverines.

Game 10: November 10, 1984

Woodbridge 7 Gar-Field 9

The fifth straight victory for the Indians over Woodbridge was led off by a 48-yard touchdown run by quarterback Terrence Gatling and Barry Miller's 26-yard field goal which gave G-F a 9-0 halftime lead. Good defense grasped a tight grip on the Vikings to keep them from scoring territory.

The Indians pep talk before the big game.

The best way to describe the 1984 football season would be inconsistency. Reasons for the 84 team's inconsistent play were inexperience and an inordinate number of injuries. In all ten games that were played, never did the same twenty-two players start the game.

The highlights of this football season were the 17-17 tie to Stonewall Jackson, who at the time, were ranked number four in the state. Winning the last two games against North Stafford and beating Woodbridge for the fifth time in a row, enabled the team to break its season-long cycle of not being able to put together back to back victories.

Under the circumstances of a large number of inexperienced players and a very difficult schedule, the 1984 Varsity Football Team continued the Gar-Field football tradition, and played with courage and determination.

The 1984 Cross Country season was one of success for some runners, and improvement for others. The success and improvement for the Gar-Field runners was due to the help, knowledge, and experience of Jack Hudson, the team's parent assistant from Woodbridge High.

The Boy's team had several newcomers with a lot of talent. The most impressive was freshman Tom Brandt. He had a very successful season placing third at James Wood, second at Handley, and first at George Mason, proving to be a valuable asset to the team.

The Girl's squad had many talented runners this year. Amy Yenyo was the biggest asset to the team. She had a good season, always placing within the top 25 runners of each race. Amy was Gar-Field's only runner to make it to the Regional and State meets, where she ran her best time placing 40th.

Overall the Boy's team placed 5th at Districts, just missing a spot for Regionals, and the Girl's team placed 8th.

VARSITY WRESTLING

Roger Kibler pins his opponent!!

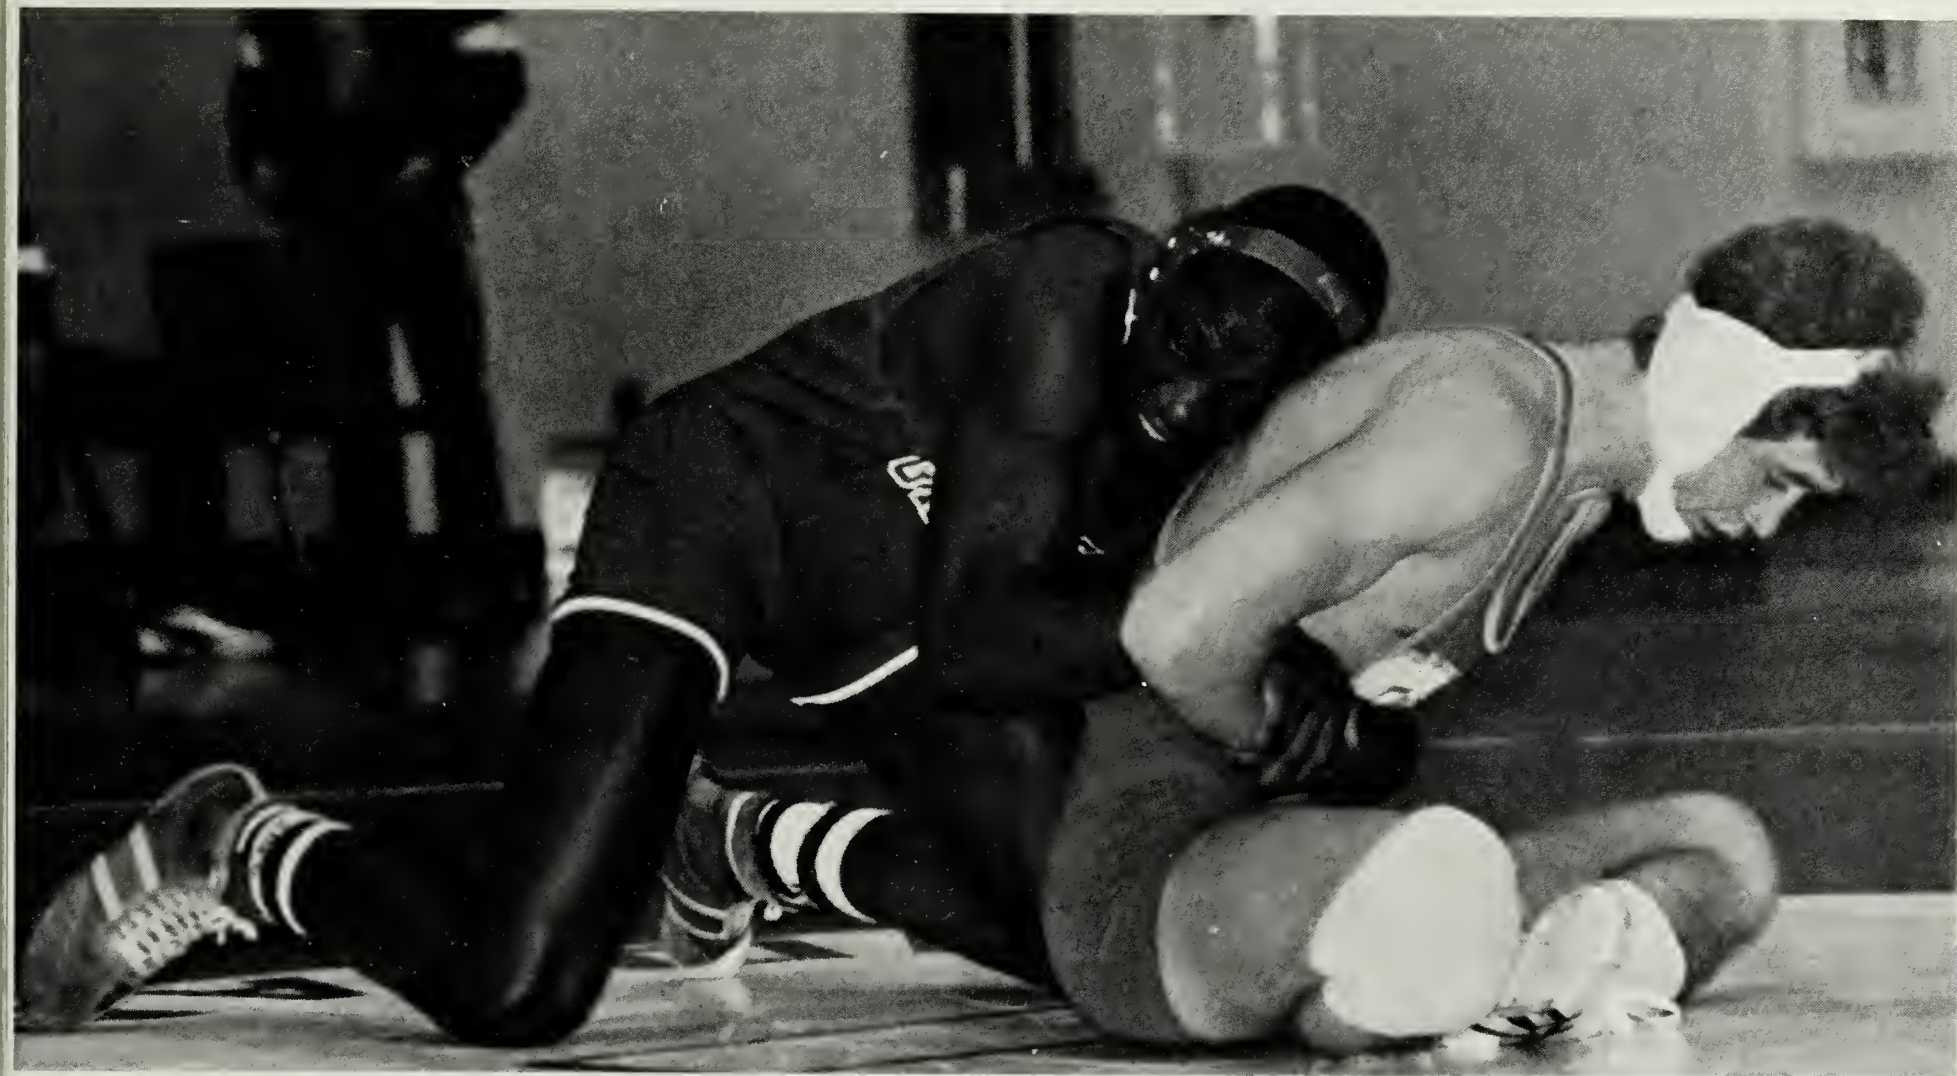

The 1984-1985 varsity wrestling team had a tough season. Dual meets were frustrating and Gar-Field lost matches by just a point or two. Unfortunately, many wrestlers were injured at strategic times. Then there was the problem of some wrestlers not making weight. The team record was 3 wins and 5 losses which meant sixth place for the Gar-Field Indians overall.

Despite the regular season, things looked up for the wrestling team when they captured third place at the District Tournament, held at Stonewall Jackson.

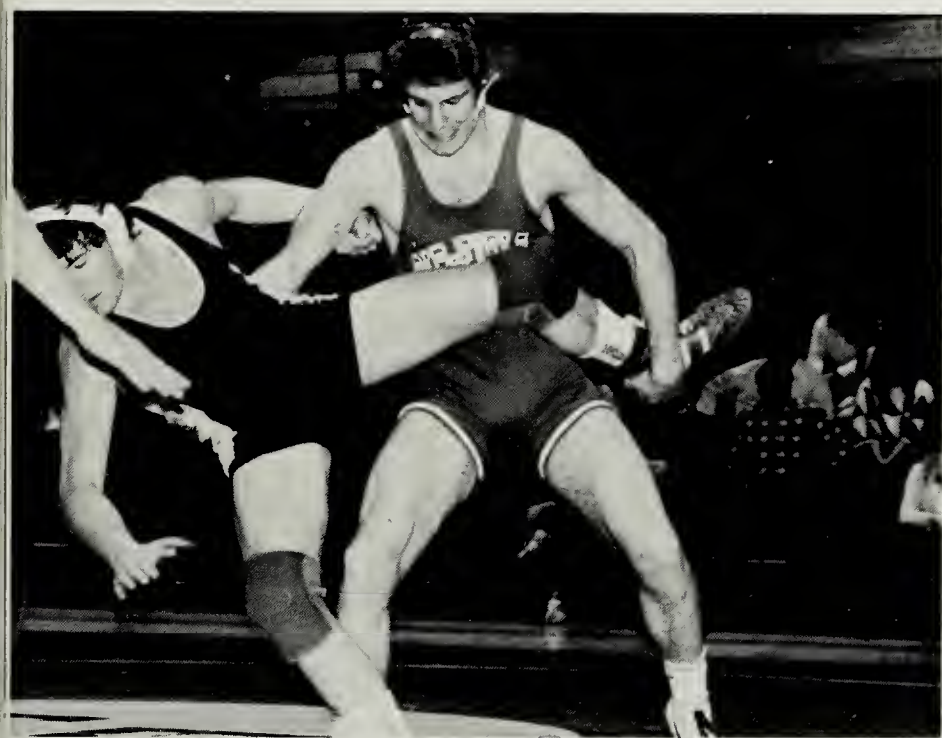

Champions for the Indians were: Mark Dobash (co-captain) at 112 lbs. and Kevin Fowlkes at 167 lbs. Peter Rowe at 176 was runner-up. Outstanding individuals for Gar-Field were: Roger Kibler (co-captain) at 119, Nam Shin at 126, Bob Bowen at 145, and Todd Land at 185.

The 1985 gymnastics team, coached by Mrs. Sullivan, doubled its membership from six, in the previous year, to twelve this season. Individual and team scores also increased greatly.

Three girls from the team made tremendous improvements. Sophomore JoAnn Sayko was the Best All Around gymnast this season. Freshman Kathy Breslin excelled in the floor exercises, the bars, and the balance beam as did freshman Erin Roth on the bars. Coach Sullivan is looking forward to another exciting season next year.

Send flowers to the graduate, she earned them. She worked hard for that diploma; but she doesn't expect lavish praise, just "Congratulations" or "I'm proud of you" will make all the time worthwhile. Say it with flowers. She earned it. Call us or visit us today.

Students scheduling their classes for next year.

Courtney Neal, where's my ride?

Students take a break outside during lunch.

To my Classmates and Friends,
It seems only yesterday when the Class of '85 first walked the halls of old G-F as faceless freshmen. Since that day, we have learned how to be real people, the kind of people that are going to make this sometimes crazy world work. Our junior year was our "year of living dangerously". We explored the world from "behind the wheel." It was also the year reality set in. We learned we must take direct responsibility for our actions. Many of us learned the hard way. But in one way or another we made it. It has now arrived, OUR YEAR. The year when we rule. The year of decisions. Life these past four years hasn't been easy, but I for one, would not trade them for anything. I will always treasure my memories of Gar-Field and of you dearly in my heart. I have seen so many grow from freshmen into individuals with your own styles and values. Over the years, you have affected me. Each experience, whether painful or pleasurable, was necessary to my formation. Each of us has contributed to what the rest of us have become. These people especially have played important roles in my life: To my parents, who had the biggest effect on my life, THANKS. I love you! Everything I am, you helped to make me, that is a debt I'll never even make the minimum payment on! And next, to Stacey. I've seen you mature from a "freshman cheerleader" to a person I love dearly. Thanks for your support over the last four years and thanks for being different with me. I love you! Emi, Kerry — we made it! Who would believe us "mooning T&V drinkers" would become such wonderful human beings! I'm gonna miss the poking and pig noises! Roger, we had our moments. Make sure you look back with a smile! Be who you want to be! Bobb, George, Bobby, and Chip: you set the standards high for your successors. I guess everything was for the best. Mrs. Martha Smith and Eric G. — Thanks for the "second chance in life." Ma, may you only get out of teaching what you put into it — EVERYTHING! And Eric, I know you love me! I hope you get your life just the way you want it. Everyone: The time has come for us to go in our own directions. May we "choose the path less travelled by" and know we have "made all the difference." Look back with only warm thoughts, for nothing, now, can be changed. I wish everyone love, happiness, success, and peace. May our class and our generation make this world a better place to live. May our paths cross in the future, and may there be sparks of recognition and love in our eyes!

Farewell,
Mercedes—Michelle Ruth Taylor-Puckett

AMERICAN FIELD STUDY

One of the newest clubs to form inside Gar-Field High School's walls was the AFS club, sponsored by foreign language teacher Miss Freidman. Although no Gar-Field students attended a school located in a foreign country, the club was more active this year than it has been in the past.

On the weekend of June 29, Gar-Field club members housed 20 of the 40 adventurous young teenagers that left their native countries to explore the United States. (Woodbridge Senior High School students were hosts to the other 20 students.)

At various times during the school year "International Weekends" were held in Washington D.C. Gar-Field club members socialized with students from diverse parts of the world, learning of many new cultures and meeting exciting new people.

In the fall of 1984, for a short time, northern Virginia area teenagers housed the AFS foreign exchange students who had been living in the southern part of the United States for that preceding year or for that past summer. This brief exchange was the last time that the majority of the foreign teenagers were to see the United States. Afterwards, the AFS exchange students returned home to their native countries.

This past year the Gar-Field AFS club also participated in a program of exchanging *only* United States students. Citizens of one state spent a year, or shorter length of time, in another state housed by a host family. Throughout that period of time, the native Americans attended their host area high schools.

Since this club began, about 2½ years ago, it has become more involved in AFS program activities. Many lasting friendships have been made and many different cultures have been explored and/or experienced. The Gar-Field branch has been successful in promoting an understanding between students of other countries and members of its own club, the very goal of the American Field Service exchange student program.

JUNIORS

The Junior year can most easily be classified as a place of no return. You have gone through two years already and have only one more to go. So why go back? The junior year may be considered as one of the hardest years in high school. Not only is it hard, but it is the time to begin planning a future for yourself. The only real way to get through the rather long year is to look forward to next year and hope it arrives very shortly. And like all good things, it will!

SCHOLASTIC APTITUDE TEST

Three times a year students cram, review, study, and pray for the biggest test of their life and possibly career, the Scholastic Aptitude Test. Students go to S.A.T. reviews and spend many hours after school studying for this all important test. If the results of your test are good they can improve your chances of being accepted to the college of your choice. If your scores are not that well, do not fear. You can always take the test again when it rolls around next.

MOCK ELECTION

This year America saw the Presidential election take place in both a national level as well as a high school level. Gar-Field was one of thousands nation-wide to participate. It was the first of its kind. A select group of students volunteered to portray various political figures of the 1984 election. It was run as a debate and executed very well with candidates portraying various Republican and Democratic nominees. There was a large number of students present due to the extra credit from their history teachers.

CLASS RINGS

Class rings are one of the most enjoyed and awaited occasions of the year. Most sophomores and some juniors and seniors, take out their savings or beg their parents to buy them a ring. Whether it is white or yellow, gold or ultrium, everyone loves getting their ring. They symbolize that you are now at least a junior. After a person gets his or her class ring, one goes through the usual customs that go along with it. They have to get it turned the number of times as their graduating class year. It is turned towards the thumb if you plan to go to college and towards the pinky if you are not. If it is turned the wrong way, taken off, or the stone is touched, you have to start all over again. The last person who seals your ring is always a loved one. Later on, many people give their ring to a boyfriend or girlfriend. If you did not get your ring this year, oh, what you're missing.

FRESHMEN

On the first day of school a few thousand people open the door to a whole new world. It is a great step from the "feed-me" atmosphere to the "your on your own" atmosphere. Although many people usually make great slanders against these new students, they have yet to realize the fact that they once were in that same position. It is a common misconception that all Freshmen are geeks. This is not true at all! Only a quarter of the class usually are. All kidding aside, Freshmen have become a symbol of mockery in the school without just reason. So Freshmen, when you are Seniors remember you were once one of the new people yourself.

MAKING THE BIG BUCK

During each school year various clubs and organizations sell and profit from assorted candy sales. Each club has the intention of supporting their own causes. The candies range from your simple chocolate bar to the more complex Gummi Bears of the German Club. The candy is sold with the intention to raise various amounts of money in order to attend plays or go on trips to other schools to further the educational horizons of the students. Although students, in particular, love all the candy, administrators tend to take a different view when wrappers and candy are left behind to clutter hallways. But if students would comply with the rules, there would be no reason why administrators could not have a positive outlook on the very important candy sales.

CLUBS AND ORGANIZATIONS

At Gar-Field there are an unlimited number of clubs and various organizations in which the student body may participate in during the course of their four year tour of this inspiring school. The clubs range from Foreign Language to Drama. Usually there are no specific requirements to be a member, but loyalty to the organization during the year is greatly appreciated. The members not only attend meetings but also plan trips, sell candy, and attend seminars or plays throughout the course of the year. These clubs usually meet every second Tuesday or every fourth Tuesday of each month.
